

“As a long-time customer of TEEPOS, I know they’re good for it. I was buying cash registers from the owner, Antonio Torres, even before TEEPOS was founded. That’s why I went strait to them when I opened up the first of my chain of La Quebrada Restaurants in 1998. They have always gone out of their way to help me and have great training and support contracts. I never really had to do too much either. The staff worked around my busy schedule and programmed everything with a copy of my menu and just a few questions for me...

Also, they were always prepared and had my entire system in-house and ready to install long before opening day! I now have 3 locations with the same Casio system from TEEPOS that they helped me pick out. I will continue to be a loyal customer because the staff is continually there for me any and every time I need help. If you want any commercial equipment and don’t want to be stuck confused and with a toll free, help line, call the company that will actually walk you thru the whole process and help you test-drive your options before you drive off the lot and crash!”
